# **NAME**

nop – pretty-print graph file

# **SYNOPSIS**

**nop** [ **-p?** ] [ *files* ]

# **DESCRIPTION**

**nop** reads a stream of graphs and prints each in pretty-printed (canonical) format on stdout. If no *files* are given, it reads from stdin.

# **OPTIONS**

The following options are supported:

- **-p** Produce no output just check the input for valid DOT.
- -? Print usage information.

# **EXIT STATUS**

If any errors occurred while processing any input, such as a file not found or a file containing illegal DOT, a non-zero exit value is returned. Otherwise, zero is returned.
